- [LR_04: .NET](#)
- [LR_05: Android Runtime](#)
- [LR_06: Javascript](#)

About

Goal: facilitate efforts and communicate the ecosystem's readiness

[Projects Mgmt spreadsheet](#)

The scope of the working group is the following:

- The Languages identified to focus by RISE Members - **Java** (OpenJDK), **Go**, **Python**, **Android Runtime**, **.NET Runtime**, **Javascript (V8 and SpiderMonkey)**
- **Build and test** on RISC-V Hardware
- Accelerate the **compilers** and **runtimes**
- Enhance support in the ecosystem

There are already clear, dedicated, and healthy investments from various companies in these projects.

The Language Runtimes WG wants to:

- Help collaboration to avoid duplication of work
- Develop a build/board farm to ease development and debugging
- Communicate on the readiness of the respective ecosystems
